Opuventus post landing services:

Apart from visa processing, [Opuventus](#) offers post landing services to all countries except for New Zealand as we don't process New Zealand visas. Our clients who avail post landing services would be picked up at the airport on landing and dropped at their house in the foreign country, which we search and get the formalities done on their behalf. Also, we keep in touch with clients until they are completely settled.

Opuventus Immigration Services and Guidance:

Although we are visa consultants, our prime motto is 'client's satisfaction.' Therefore, we ensure that the client is happy with the decision he/she makes. Whenever we come across customers with vague aspiration such as 'migrating to overseas,' Opuventus guidance team would seek further details such as the purpose of migration, etc. based on which it would suggest the best countries migrate to. Accordingly, the client can opt the country of his/her based on our suggestions.
