Hong Kong Immigration

Hong Kong is one of the world's biggest financial centers which is one of the two Special Administrative Regions of the China People's Republic. Hong Kong also scores as one of the favorable per capita income in the whole world.There are multiple factors which make Hong Kong as one of the most sought after destination to be looked for migrants to China as it offers a wide range of opportunities to the aspirants.

As it is the closest land terrain to India which makes it suitable criteria suited to be a much preferred overseas destination for immigration for the migrants of India.Hong Kong is a prima facie for business and investments. Its immigration policies are migrant friendly which the nation is proud of in the world even while through its many attractive and lucrative visa categories it allows people with dynamic profiles to shift its seeking opportunities in the foreign market to shift territories and relocate to Hong Kong, to achieve their dreams.

Under the Hong Kong Quality Migrant Admission Scheme those who want to work in the country, which is also a leading Asian economy could utilize their strengths here.The Hong Kong's Capital Investment Entrant Scheme for Businessman and investors makes Hong Kong as an Immigrant paradise. There are numerous fascinating choices which are available in case you possess the relevant expertise and are keen to stay and get successfully employed in the country, programs such as the General Employment Policy Program which is for trained individuals with an employment offer at hand and the General Points Test.

About General Employment Policy

The overseas people with employment offer in the country—and who have the desired combination of expertise, skill set,

besides work experience—have the chance to move to the nation through the GEP program.The employment offer which the aspirant has should be proved with his/her appropriate experience and eligibilities for the job at hand. The salary levels will also differ being at the current salary for the work in the area of your experience.

About General Points Test

The points-based set-up is not much different, but in the likes of similar immigration destinations, like Australia & U.K. The visa-petitioners should carefully be examined under certain demographic conditions such as age, languages,skills, academic profile along with work experience. Under this scheme, it's not necessary to have any employment offer from a national firm/recruiter. Presently, the candidates need to score a minimum of 80 points in the GPT test.
