

Opulentus review

Thanks to Opulentus

Hi all, my experience with Opulentus was really good. Two years ago, I got a job in Canada and they wanted to me to report to services as soon as possible. I asked them if they could sponsor a visa for me. They said they don't do it. However, they gave the address of Opulentus and asked me to approach them immediately.

I went to Opulentus with all the required documentation. I told them that I wanted to go to Canada on FSW. They verified all the documents and told me that I was eligible for the FSW program. They finally processed my visa.

Also, Opulentus executives gave me their help desk number and even the complaints desk email id and phone number. They asked me to email the complaints desk in case I face any grievance with any of the Opulentus executives. This was something that impressed me.

Some of the good things about Opulentus are

1. They charge you very low for processing fee
2. They are very professional
3. The customer care service of Opulentus is wonderful
4. Opulentus complaints desk is in place to hear the grievances, if any, of the clients
5. Opulentus process visas quickly

I am happy with Opulentus and I endorse them.
